### Working together to overcome difficulties

At 9 am on February 3, 2020, our chartered plane was airlifted from the United States to domestic epidemic prevention materials, which have been uniformly received by the China Siyuan Engineering Poverty Alleviation Foundation and Hubei Provincial Charity Federation and distributed to the anti-epidemic front of Wuhan.

The "Flying to Wuhan" initiative was jointly initiated by the China Siyuan Project Poverty Alleviation Foundation and Little Information. Chinese overseas Chinese from all walks of life in the United States, logistics between China and the United States, volunteers from all walks of life, including many of our employees, also contributed greatly to it. Thanks in advance for your efforts.

After the outbreak in Wuhan, many hospitals ran out of supplies and were anxious to see their hard working conditions. Coincidentally, a company executive visited relatives in the United States and found that many Chinese and overseas Chinese in the United States wanted to help their fellows to donate supplies. After urgent communication with the company's management, it was decided to charter a plane to transport epidemic prevention materials to the country and donate the overseas Chinese from all walks of life. The supplies were returned to China. The front line of anti-epidemic protection materials is extremely short, and the company is willing to contribute to this.

From the early morning of January 25th, the preparatory operation started, and on January 30th, the plane arrived in Wuxi, and at the fastest speed, Kerry Chase and Yunda Express supported the logistics to reach Wuhan for free. After nearly 150 hours, supplies Successfully shipped home from the United States. The whole process was twists and turns, and the original departure point was also changed from Seattle to Chicago. In 6 days, a series of complicated tasks such as procurement and collection of all materials, concentration of transit, customs clearance, route coordination, customs clearance, and transportation were completed. This is no different from a battle for us. We must not only do all this well within a short period of time, but also carry forward the outside world's doubts. Fortunately, we have finally won this battle.

Here, I would like to thank once again the staff of the China Siyuan Project Poverty Alleviation Foundation. It is you who have been fighting through the night, coordinating the relations between the parties, and ensuring the smooth progress of all links, which has brought this operation to a successful conclusion. Li Xiaolin, deputy chairman and secretary general of China Siyuan Project Poverty Alleviation Foundation, and Tao Ming, deputy secretary general, also gave high support to the operation. I would like to express my sincere thanks for this information.

Special thanks also to the Hubei Provincial Health and Health Committee, Hubei Food and Drug Administration, Hubei Charity Federation and other departments for their strong support. After the materials arrived in Wuhan, they assisted us in receiving materials, inspecting and quarantine, and arranging storage. Dispatched to hospitals with scarce supplies as soon as possible.

配合本次行动的嘉里大通和韵达两家物流公司，为我们提供了免费的专业物流服务。在物资降落无锡苏南硕放机场后，选派了专业人员将物资经公路运往武汉，这种不计得失，不顾个人安危的奉献精神，我们没齿难忘。对为本次行动提供无私帮助的嘉里大通物流公司和韵达速递，致以诚挚的感谢。

筹措前期，包括美国美通互动Matone CEO崔宸、设计师琪琪、芬奇教育CEO唐慕、芝加哥留学生邱俊皓等在内的多位美国志愿者，在物资采集、仓储沟通、物流协调等工作上均提供了帮助。对于此次行动默默付出的志愿者，以及一点资讯牺牲春节假期全力协助的诸多员工们，公司也再次表达深切感谢。

众志成城，定能渡过难关！
